## REVENUE OF 1892.

The official returns published last week for the quarter ending March 31st shew an increase of 45 per cent in the revenue derived from import and export dues, as compared with the same quarter of 1891.

| | $ gold |
|---|---|
| 1891 ..... | 4,400,000 |
| 1892 ..... | 6,400,000 |

If the receipts for the ensuing nine months be in proportion, the revenue from import and export dues will reach $25,600,000. It is only fair to suppose that a correspouding increase may be looked for in other sources of revenue (inland taxes, &c., which stand for 23 per cent of the total), and in that case the revenue for 1892 would shew thus:

| | $ gold |
|---|---|
| Duties..... | 25,600,000 |
| Sundries.. | 7,700,000 |
| Total... | 33,300,000 |

This would be 110 millions currency, and would compare with preceding years as follows:—

| | $ currency | | $ gold |
|---|---|---|---|
| 1883.... | 30,700,000 | = | 30,700,000 |
| 1884.... | 37,200,000 | = | 37,200,000 |
| 1885.... | 38,600,000 | = | 28,200,000 |
| 1886.... | 46,700,000 | = | 33,800,000 |
| 1887.... | 56,900,000 | = | 42,100,000 |
| 1888.... | 57,100,000 | = | 38,600,000 |
| 1889.... | 72,900,000 | = | 40,100,000 |
| 1890.... | 73,200,000 | = | 28,500,000 |
| 1891.... | 71,500,000 | = | 19,200,000 |
| 1892.... | 110,000,000 | = | 33,300,000 |
| Average | 59,500,000 | = | 33,200,000 |

It is remarkable that the average (in gold) for the 10 years should be the same as the estimates that we venture to forecast, provided the Republic be allowed to progress in peace and industry as at present.

But even supposing that our brilliant hopes be fully borne out, we cannot have the least ground to promise that the Republic will be in a position to resume the full service of debts and guarantees on January 1st 1894 as stipulated in the Mortorium loan.

Only last week the Government found it necessary to buy a new cruiser from Lord Armstrong at a cost of £300,000 sterling. We cannot criticize such purchases, because we are ignorant of the actual condition of Argentine relations with Brazil, Chile, Bolivia etc. But we have the experience of 30 years of Argentine finance to warrant us in saying that expenditure always outruns estimates.

We do not think the available surplus for suspended debts and guarantees in London will for some years to come exceed £1,000,000 sterling per annum (over and above £500,000 a year that the country still pays on the Pellegrini loan). Such a surplus may suffice to pay 1 or 2 per cent yearly to bondholders. The full payment on debt and guarantees is put down by the Moratorio Committee at £3,500,000 or 25 millions of gold dollars, or three-fourths of the total revenue that can be expected for the current year under the most favorable point of view.

## NORTHERN URUGUAY EXTENSION.

MR. CRAWFORD'S FAREWELL.

On Friday, 29th April, Mr. R. Crawford C. E. who has so successfully concluded the Northern Extension of the Central Uruguay Railway to Rivera, paid a last visit of inspection to the new line, before leaving for Europe. He was accompanied by a party of friends and engineers and the visit was also rendered official, by Col. Escobar and Col. Larrobla, the Jefes Politicos of the Departments of Rivera and Tacuarembó, respectively, joining the party, Both showed great interest in the line and works examined and freely expressed their opinion that Uruguay owed more of its development to Engineer Crawford and his staff than to anything else.

The expedition set out from Tacuarembó on Friday and reached Santa Ana do Livramento, on the Brazilian frontier, just opposite Rivera, on Saturday. Here they remained all day, as the weather was bad and as one of the objects of the "paseo" was to take photographs of the most salient features of the line which such weather did not permit. Sunday, however, was a fine day and was commenced with a splendid breakfast given by Mr. Crawford to the two Jefes, who are indeed the rulers of the principal part of the country north of Rio Negro.

The expedition included Engineers Steadman, Cols. Larrobla and Escobar, Col. Sixto Rodriguez, Dr. Morador, Messrs, MacIntosh, Morb. Crawford jr. Fitz Patrick, etc, etc.

The party left Rivera, which is only separated about 100 yards from Santa Ana, at about 2 p.m. for Bañados de Rocha, near the tunnel, and photographic views were taken all along the line by the well known English photographer Mr. J. Fitz Patrick, whose views of the other extension and the valley of Los Tambores, have been so justly praised.

The party arrived at Mr. Steadman's casilla, about 5 o'clock, where a first rate banquet was provided. After the good things had been discussed and champaign was beginning to flow the two Jefes, recalling to mind the last journey of inspection along the line when the Ministers of Government and War accompanied the expedition, said that that journey had been signalized in an appropriate and significant manner by christening one of the hills en route the "Correo de los Ministros. Our journey also deserves similar resognition, argued they, for we have had the pleasure of inspecting these now finished works under the intelligent guidance of the clever engineer Mr. Crawford, to whom they are due, and who is now about to leave us to return to his own country. Before he goes we will take this opportunity said Col. Escobur, speaking for himself and Col. Larrobla, to perpetuate the name of the man to whom we are indebted for this great step in the van of progress, by baptizing one of the most charming hills near the line by his name. Mr Crawford, while thanking them for the honour they so kindly thrust upon him, said that in that case another Cerro on the borders of Tacuarembó and Rivera should be called "Corro de los Jefes" in commemoration of the pleasant trip.

The following day a movement was made to these Cerros and after an "asado con cuero" the Cerros were reached and views taken of them. Cerro Crawford lies just beyond the river Las Cañas, on the left hand going towards Rivera. A most charming view was taken of it with Engineer Grawford standing in the foreground. At the back is the Cerro and to the left the Las Cañas bridge which the engine is about to cross but stops short to blow a shrill salute in honour of the occasion. Two views of the "Cerro de los Jefes" were also taken; one from the Department of Rivera and the other from the Department of Tacuarembó, between which the Cerro lies. The two chiefs are standing together in the foreground, like monarchs of all they survey.

Many other views were taken and show the extensive engineering work that has just been successfully concluded by Engineer Crawford and his staff, as also the luxuriant vegetation and charming scenery of this republic in those northerly departments. The pictures are artistically selected and include many pretty bits of waterfall, mountain scenery and fertile valleys. The picture of Santa Ana do Livramento is also a most interesting one, showing a Brazilian town with its orange groves and tile-roofed houses. The bridges taken were: Tres Cruces, Laurel, Tacuarembó Grande; the tunnel of the Bañadas de Rocha, about 300 metres long; and other views were those of Cortizeras, Las Cañas, Laureles.

We trust these fine views will be placed on view by Mr. Fitz Patrick, that stay-at-homes may have an opportunity of appreciating the beauties along the line to Rivera.

Adding our congratulations to those of his many friends on the successful conclusion of his labours, we wish Engineer Crawford a pleasant voyage to the old country, and trust we may see him here again one of these days to still further extend civilization, by means of the iron way and the locomotive, in Uruguay:—*Uruguay News.*

## CAÑADA DE GOMEZ.

THE CALIFORNIA ESTANCIA.

When Mr. Benitz, senior, with his family, came to this country in 1875 from California he found it in a very different state to what it is at present. No railway to his destination and no roads of any worth, the difficulty of moving his goods and chattels was great but that overcoming Mr. Benitz arrived on the ground which he had chosen and bought. Three leagues of land between what are now called Elisa and Las Rosas were retained out of the four leagues bought, and to this the 'lares and penates' of the family were carted with considerable difficulty. It was decided to build a house not only suitable to the immediate wants of the family, but one in which could be entertained the numerous friends and passers by also, which all estancieros receive with a welcome known only in camp life. In addition, Mr. Benitz was of opinion that when building it would be better to build with regard to future requirements. The result was a house of large extent replete with every comfort, with rooms sufficient to accommodate twenty-five visitors, and though so many may not often be seen there at one time, it is certain that they would be received, should they arrive, as though they had been expected for a week.

The number of skins disposed about the rooms is simply astonishing. Lion, jaguar, wild boar, guanaco, serpent, and indeed every kind of skin indigenous to this country is to be found at La California, and some of the most beautiful specimens.

To describe the park in front of the house and the trees and gardens around is difficult. The appearance of the grounds when one comes from the dining room is most imposing, and the guardian, the giant puma, prowling from end to end of its tether, makes it more imposing still. All the trees were grown from seed brought into the country by Mr. Benitz, not one being on the place previous to his arrival, and the result is marvellous. The blue gums, of which very few exist in Santa Fé, are here the finest to be seen. Pepper trees, silver and golden wattle, pines from the States, and many other varieties are to be found in profusion. In the garden behind the house are pears, apples, quince, figs, cherries, peaches, raspberries, strawberries of both European and Alpine varieties, and all kinds of fruits and vegetables, Mrs. Benitz taking almost as much interest in her garden as in her dairy.

Most sadly, twelve months after the building of the house Mr. Benitz died and left his sons to carry on the estancia business in conjunction with his widow.

To arrive at La California you take the train to Las Rosas and return towards Elisa, then, at an angle almost acute, turn to the left, and with your destination unmistakable in front of you, carry yourself on another half a league; La California, Las Lomas, and Las Rosas are all in touch and equidistant.

Mr. John Benitz is the actual head of the establishment.

To commence with the horses: The breeding of horses for harness purposes is the aim of Mr. Benitz, and many were being handled and broken on my visit. There are four manadas of mares each containing forty, and this year great luck has happily been the lot. The stallions, four in number, were selected from the stud of Mr. John Nash, of Carcaraná and El Refango and do not detract from the reputation of that gentleman as a breeder of high class animals. They are Clydesdale, Cleveland, and one Irish hunter of great power and form, and their stock are just required in this country for carriage and draught purposes. There is also a pair of pure white ponies, now being broken to harness, as handsome as any driven in the "Row" and should turn out as valuable.

Two thoroughbred bulls and a hundred breeding cows are the home cattle. That cattle were removed from La California was due to the fact that the "pasto fuerte' was found not to have the nutritive powers hoped for, and so they were sent to the Gran Chaco, where Messrs. Benitz rent some six leagues and have over 8000 head, which are of the best and fattest. Every year cattle are brought down and other cattle are taken for the same purpose. To the markets of Buenos Aires, Rosario, Cordoba, and Santa Fé there are continual consignments both from here and the Chaco.

The sheep consist of 3000 black faces, from the flocks of Mr. Kemmis and Messrs. Dickenson, with thirty imported rams. The sheep dip is some six feet deep and fifty yards long, and built, with its approaches, on principles of the soundest.

Three hundred pigs from "famed Berkshire" complete the stock, but still there are many working bullocks employed in ploughing the last 1000 squares which are to take alfalfa in July, and for home purposes.

There are now 15,200 acres of alfalfa divided into "potreros" and fenced to perfection. No wheat is grown, except by the colonists on the land, who this year, from 1000 squares, averaged sixteen quintales of excellent grain.

The dairy, cool and grotto-like, is a great hobby of Mrs. Benitz, who delights in superintending the making of the cheese and butter. The exellence of these is well known, not only over the province but at much greater distance. Hides and wool are sold at the place, and not exported direct. Direct exportation of horses is, however, in contemplation for the early future.

The ostrich about which Mr. Benitz wrote you a week or so ago, which had, as supposed, ceased to lay, has now beaten her record; on the day of my visit, the 21st. inst., she had deposited ninety-eight eggs, and still looked as if she could eat another packet of tin-tacks or a cold chisel, for which she seems to have a penchant. There are thirteen of these birds in the small paddock adjoining the house, and very charming they make the view, but this is the only domestic one.

The Gran Chaco is, I hear, though wild and rough, specially adapted for breeding cattle on a large scale and is the home of all kinds of wild game. Mr. Alfred Benitz is in charge there and has had many a brush with the Indians, for whom he generally accounts. Mr. Herman Benitz spends his time doing the hard work—he likes it—either here, at the Chaco, or on the estancia in Entre Rios, where another brother is manager and part proprietor. He was in the expedition against the Indians some three years ago which was commanded by Comandantes Agromenova and Sepera, in which 120 men took part. He was three months out and has many tales to tell.

The success of Polo in this province owes much to Mr. John Benitz. He and Mr. Alfred Dickenson, enthusiasts in the game, whip up from every available spot those who can play and those who are likely to make players, and encourage the 'young idea', not by swearing at him when he makes a bad stroke or breaks some rule, and so unnerving him, but by applauding any mark he makes on the field and telling him quietly of his mistakes afterwards. These are the class of men to make the game popular and to bring in new blood.—*Sport and Pastime.*

## PROVINCIAL NEWS.

On Wednesday the Governor of Salta opened the local legislature with a brilliant, eloquent and outrageously voluminous message. He describes the year as a revolutionary and anarchical one, the dangers of which were averted by his prudence. He dwelt on the necessity of sending envoys extraordinary to the other provinces with a view of negotiating treaties against the numerous bandits who infest the interior. H. E. suggested the advisability of drawing up a code of proceedings and otherwise improving the administration of justice. He praised the discipline of the police, who, unlike the schoolmasters, are punctually paid. The future of the country lies in the hands of the schoolmasters; the present in those of the police—a slight difference. His Excellency explained to the honorable legislators the necessity of increasing the police-force, with the ostensible object of capturing bandits. From bandits to prisons there is, or at least ought to be, only a step. H.E., after alluding to bandits, described the condition of the prison, where the prisoners are now engaged in different trades. There appears to be no Governor for the prison, as H. E. asked the legislature to create such a post, a nice little berth for one of "los amigos." His Excellency went into raptures over the Health Board, whose members ask for no remuneration, an extraordinary feature indeed. The revenue of Salta in 1891 amounted to $480,000 currency, that is $50,000 over the estimates. We don't find anything about the expenditure. Owing to the National Government not having paid the school-subsidy — $90,000 —, several schools had to be closed for want of funds. There are at present 110 public schools in Salta. His Excellency brought his message to a close with some high-toned financial remarks on the necessity of reforming the charter of the local provincial bank and of passing a law for strengthening the bonds issued by the province.

A truly horrible affair is reported from Azul. A little after midday on Wednesday a man named Santucho meeting a personal enemy of his named Tiola in the pricipal plaza, whipped out a revolver and fired four bullets into him, wounding him mortally. Tiola in the meantime attacked Santucho with a dagger and inflicted a very dangerous wound in his head. Both men were carried away in a dying condition. This comes from allowing foolish people, who have no control over their feelings, to carry knives and revolvers.

Our Rosario exchanges contain no particulars in reference to the big smuggling case just discovered in the Custom House. This reticence is perhaps enforced by the police. The State, it is said, has been defrauded out of a million of dollars.

The Municipal row in La Plata between the Mayor and the president, now ex-president of the Corporation, is going before the Courts. Mr. Guerrico, the ex-president, had began to be unpleasant in regard to the municipal accounts, and the Corporators called a special sitting and kicked him out. By one of those curious chances so frequent in the Plate, Mr. Guerrico received, in lieu of the notice of the special sitting, his own dismissal already made out.

## NATIVE INDUSTRY.

The furniture show-rooms of Messrs Bristow and Trench at 642 Calle Maypú may be considered an exhibition of native industry well worthy of notice.

Here you may see magnificent suites for drawing-room, library, dining-room and bed room finished in a style that neither London nor Paris could surpass; among the woods used are Paraguayan cedar and Tucuman walnut. It is incredible what a fine polish and appearance these woods assume under skilful workmanship. The Paraguayan cedar, moreover, has a delicate fragrance that is very agreeable, especially in wardrobes, preventing all kinds of moths or insects.

Messrs Bristow and Trench (experienced London workmen) commenced operations in our city 5 years ago in a small back room. They at present have 70 workmen constantly in their premises. This is sufficient proof how the public appreciates their work. Visitors will be much pleased on inspecting the show-rooms, whether they mean to purchase or not.

Besides the household furniture there is another thing well worth seeing, and that is the parquet-flooring, which is admirable. For ornamental work it is unsurpassed.

All the brass work used in the factory, such as locks, handles &c. are imported from London. The upholstery work in morocco is the finest made in any part of the world.

## THE NICARAGUA CANAL.

The fact that John W. Mackay, Austin Corbin, Andrew Carnegie, H. Armour, and Cornelius N. Bliss have recently become large stockholders in the Nicaragua Canal Company is a good indication of the prosperity that is attending that project. Several of the gentlemen named are to be represented on the Board of Directors, an early change in which is expected. Before starting on his trip to the Pacific slope, Mr. Carnegie bought a large block of the stock, and shortly afterwards Mr. Mackay invested heavily in it. When the other gentlemen mentioned purchased their holdings is not known.

The fact that Mr. Mackay has entered the company will have the effect of greatly increasing the confidence of the people on the Pacific coast in the undertaking', said Warner Miller, President of the Nicaragua Canal Construction Company, yesterday. 'In response to several invitations which I have received to speak on the Nicaragua Canal project before Chambers of Commerce and Boards of Trade of many cities on or near the Pacific coast, I shall shortly start for Seattle, and, beginning there, shall make addresses on the subject in all the large coast cities as far south as San Diego, Cal. I shall then speak before the Boards of Trade in Galveston and other important cities on the Gulf of Mexico.'

Mr. Miller said that it would not be long before the bonds of the Nicaragua Canal were placed on the principal markets in the world. 'The financial situation for the past two years,' said Mr. Miller, 'has been unfavorable for such an operation, but it is now improving.'

Mr. Miller said that his position had not changed with regard to Government control of the canal and declared that, instead of soliciting the Government to guarantee the bonds and assume control of the enterprise, he was in favor of building the canal by private capital. He did not know whether the Nicaragua Canal bill would be again taken up during the present session of Congress.

## THE SMOKING CONCERT.

Mr. Editor,

L. L. D's personal experiences as detailed in your issue of to-day, are exceedingly interesting, and I cannot but admire the way he has taken to air his grievance.

Can it be possible that "L. L. D." is se familiar with 3rd class English Music Halls that the mere sound of music coupled with the blinding smoke carried him back to the old familiar scenes where he had spent the happiest moments of his life, or can it be that he missed the flowing tankard and that his effusion is merely a hint to the Society to supply it on future occasions?

I note that the wonderful transformation of the reading room into a Music Hall had already taken place when "L. L. D." put in an appearance (previous to the arrival of the hero of the evening.) Therefore it is clear that the said transformation was not effected by that young gentleman. The only conclusion to be drawn from this is that the whole body of gentlemen who performed that evening were nothing more or less than 3rd Class Music Hall artistes, which enviable distinction I am sure they fully appreciate. If this is a fair sample of the thanks that the performers are to receive for doing their utmost to entertain the company, I think the sooner the Literary Society is boycotted the better.

"L. L. D." is evidently much interested in his hero, since he gives such a graphic description of his performance.

"Ballyhooly," "Killaloe," and yet another. A light dawns upon me. The fierce Editorial attack made upon the same songs in last week's *Southern Cross* doubtless was insufficient to appease the Editor's vengeful spirit. He must give that publicity to his opinions that his own journal does not afford, and therefore under the guise of "L. L. D." he addresses himself to the public in your columns.

The songs referred to are not recent emanations at all; they were popular six years ago, and the only one to which his paraphrasing will apply is "Enniscorthy," in which, I grant, the characters are suppose to get into that delightful state of inebriation when a ruction is absolutely necessary to let of steam.

I can see nothing objectionable in the songs themselves, and if "L. L. D." had a grain of respect for the Committee of the English Literary Society, he would appeal to them to put a stop to such exhibitions.

The Committee of the Society are all well known men, and I am confident that if anything worthy of protest occurred they would take prompt measures.

No such measures having been taken, I am constrained to believe that "L. L. D's" complaints have no foundation but prejudice and are therefore deemed by the Committee unworthy of consideration.

I am, Dear Sir,
Yours faithfully,
*The Hero of the Evening.*

ED. NOTE.—It is only fair to say that Mr. Dinneen did not write the L. L. D. protest.

Mr. Editor,

Like many others of your readers, I was considerably astounded at the appearance in your columns of a letter signed L. L. D. directed against what took place in the Society's rooms on Saturday evening last.

The writer appears to be a gentleman of literary tastes and, no doubt, possesses an observant mind, but I fear that the latter quality—the faculty of observation—was not allowed to have full scope recently, otherwise he would have seen some weeks previously, hanging on the walls of the Society, a placard written in unmistakable caligraphy, bearing the announcement that on such and such a date a Smoking Concert would be held on the premises. I cannot understand why this notice could have escaped his eagle eye. This would have prevented him exposing himself like a martyr to the fumes of tobacco smoke, and it would also have dispelled the delusion of attempting to read quietly while a concert was being held. A concert is not intended to be a Quakers' meeting, neither are songs supposed to be sung in silence, notwithstanding the rumour that an ingenious North American engineer has invented a steam whistle that will make no noise. The objection of L. L. D. to having his peace disturbed while a concert is being held will also apply to a more or less degree to Lectures or Debates.

I regret that he should have written so harshely about "Killaloe" and Ballyhooly." That they were written by an Englishman is no proof whatever that to "a certain extent" they are not typical of the Irish character. The Irish, as I have found them, are brave, generous and witty. I have never been to a 3rd class music hall, but I remember distinctly that the first time that I heard "Killaloe' was at a concert in connection with a church organization in London, and the vocalist belonged to the Hiberian race.

In fact I have heard far more Irishmen sing the above songs than Englishmen, Scotchmen, or Welshmen. Why do Irishmen sing them if they be so degrading to their nationality? Songs to be popular must be fairly true to nature, they must be typical and characteristic.

I will not attempt to analyze such a production as "Killaloe," I will simply take the last verse as a specimen. Is it not a harmless witty skit on the condition of Ireland during the early stages of the Land League movement? I ask every calm, impartial, reasonable reader if Paranell's "No Rent" manifesto was not "answering" the landlords "in French."

I objects to "Killaloe" and "Ballyhooly," not on account of a supposed travesty on the Irish, but simply because they have been played out, they are now stale and out of date. Every dog has his day, and so have the songs in question. What lovers of Irish comic songs now need is fresh ones. Concerts are not necessary adjuncts to a literary society. At the same time they may be useful in a foreign land to bring together on a winter evening some of the scattered members of the British community. That the Smoking Concerts of the Literary Society have many defects I admit, but those defects can be removed not by captious, carping criticism, but by friendly suggestions and sympathetic co-operation.

*D. W. H.*

## BILLS OF EXCHANGE.

Mr. Editor,

Times must be out of joint indeed when one cannot ask a civil question in the columns of a public journal without meeting with insolence from corresponsdents like "P. Tobi".

Certainly if he would have prescribed "two lessons in book-keeping" for me I should decidedly suggest his taking for a long time to come a couple of anti-bilous pills at bedtime, as also private lessons in civility and courtesy.

Your correspondent does not attempt to prove wherein my letter was "silly": neither does he shew us in what the four replies thereto were "rubbish".

Yours obediently,
*A Young Merchant.*

May 19th.

Mr. Editor.

Eureka! Just you put me down for a hundred years' subscription, the amount of which you will place to my debit; then I shall give you a "pagaré", for which you will give a receipt in full discharge of my debt (see the advice of several accountants!), and my part of the transaction will be closed (see other of your communications from accountants).

But your part of the transaction will not stop here; you will have to keep on supplying me with my morning's relish for the next century; but whatever you do, don't forget to put my "pagaré" at my credit, and let it remain there.

*Almacen & Co.*

## CHASCOMUS.

The general meeting of the English Benevolent Society here has been unavoidably put off for a short time; but not wishing to delay the public acknowledgment of the kind donation of $20% from Mr. Christopher Hill, and the same from Mr. J. Clark, I should be greatly obliged if you would put it in your paper, at the same time making it known that any English-speaking people in distress here can apply to the Secretary, Mrs. Lowrie, John Keltic Esq. treasurer, or myself.

*Josephine Farnesi.*
President of the E. B. Society, Chascomus.

## ENGLISH HIGH SCHOOL.

On the evening of Tuesday last a very enjoyable Magic Lantern Entertainment was given to the boarders of the English High School. A large white screen was placed in the central section of the great schoolroom, in front of which were seated all the girl and boy boarders, and from the moment the strong lens of the Lig lantern was turned on until the last pictures had been shown, the thorough appreciation of the juvenile audience was made abundantly evident by the hearty applause bestowed upon the scenes shown on the canvas of the manners and customs of various countries, and the shouts of laughter when an occasional comic picture took the place of a serious one. At the conclusion three ringing cheers were given for Messrs Hoetle and Shaw, the gentleman who had kindly and voluntarily given the entertainment. The sectional divisions in this schoolroom can be easily removed, thus transforming it into a large, commodious hall fully equal to the dimensions of the well-known Operai Italiani saloon in Calle Cuyo, and in every way suitable for balls, exhibitions and other entertainments. Those living in Palermo or the northern districts of the city would do well to take note of this, as any reasonable application for the use of the hall for such purposes would, we have no doubt, meet with a ready response from the obliging Rector.

## RAILWAY ITEMS.

The Central Argentine Railway, according to a Rosario exchange, is now issuing cheap excursion tickets for the Peyrano branch. The result is the trains are crowded on Sundays and holidays. The tickets hold good from Saturday to Monday inclusive.

The opening of the Central Argentine to Alta Garcia appears to have been the means of transforming that pretty little Cordobese town. The trade of the place has grown wonderfully, and the facilities offered by the railway have caused a number of families to leave Cordoba and take up their abode there. Alta Garcia will soon be to Cordoba what Flores or Belgrano is to Buenos Ayres.

In reference to the notice we published in our last of an application having been filed by settlers in Cavil Redondo, &c., Tucuman, for a railway station, we learn that the present production of sugar in those plantations is no less than 30,000 tons, and will soon be 100,000.

## EDITOR'S TABLE.

Gold down and the optimists jubilant again yesterday. The poor pessimists have not a friend in the world now, and rarely get an invitation to dinner: it is also considered the proper thing to "cut" them in the street. A few short months ago they used to snub the optimists. Such is River Plate life. All dogs have their day.

For the benefit of our readers and subscribers who tempt Dame Fortune in the Montevidean Lottery, here are the principal winning numbers drawn yesterday: 2620, 20,000; 7365, 1,000; 8395, 4926, 500; 8570, 6638, 2027, 200; 4840, 7900, 10850, 3020, 7675, 8895, 4886, 100.

A fair subscriber in Parana has been kind enough to send us some news from that interesting quarter of the republic. She begins with a murder of a butcher by a man who was drunk at the moment; then comes the suicide of a very respectable man named Palastron, who formerly owned an "apology for a hotel" at the port; he threw himself into the river, owing to family broils. Weather dull, damp and dreary; business dull, and everything very dear. The Chambers will be opened on the 25th. Several burglaries, formerly unknown in Parana, have lately taken place.
We learn from the *M. V. T.* that "the burning question is settled at last. The coveted dollars of the "Night Shelter." After this blow the first named institution must really change its name. "Disunited" and "Untied" have been tried and failed to stick. How would "Semi-united" answer?"
What right has one of Uncle Sam's newspapers to speak of South America in the following disrespectful terms?:—"These people must have goods from somewhere. They are awkward customers to deal with, truly, but they will be better presently, and if the United States, France, Germany, and other of our competitors can afford the trouble and risk of dealing with them, so can we."
In reference to the question put to us the other day as to the fastest train between London and Glasgow, Mr. Stant, C. E., informs us that the duel between the East and West Coast routes of Railway has been really between Mr. Webb and Mr. Worsdell. These two gentlemen (Mechanical Engineers) were a few years ago colleagues at Crewe, L. and N. Western Railway. A trial was made last year between these two gentlemen's rival Companies, and the North Eastern Railway Co. (Mr. Worsdell's) certainly take credit if not for the fastest, at least for the longest run in Europe, from Newcastle to Edinburgh, 124½ miles which was accomplished in 2 hours 53 minutes. The two longest runs ever made in England were no doubt the Trent despatches which came up from Holyhead to London, 264 miles, in 5 hours with one single stop half way, at Stafford, to change engines. In North America, The Chicago (Limited) by the Pennsylvania route has one break in 146 miles, and two others of over 130 miles up the Valley of the Hudson to Albany in 3 hours and 20 minutes without a stop.
Our Italian friends are extremely angry with the Minister of Foreign Affairs because (through the Under Secretary) he says, truly enough, that the Italians are not consumers of Argentine products, nor have they any capital to send here to help the country along, so Argentina will not go to the Genoa Exhibition. In return for this little snub the Italians here declare that they will not send anything to the Chicago Exhibition.
Amongst the matters to which Congress will have to attend in the coming session is a claim by a Spanish nobleman, the Marquis of Havana, for a large tract of land in Cordoba, which belonged to his father, General Concha, who was shot during the War of Independence. The noble Marquis is President of the Spanish Senate.
The Operai Italiani Hall was crowded to the doors on Wednesday night at Señora Escalante's concert. The programme was splendidly gone through and all the charming young lady amateurs were presented with beautiful bouquets.
Now good Zoos, start for Mendoza to-night and you will be just in time to stop the first bull-fight of the season, which is announced to take place in the grapy city on Sunday next.
There was a mysterious murder committed in Calle Rivadavia, near Pozos, at 9 o'clock on Wednesday night, where a man was found dead on the footway

Dear Sirs—
"I have tried HAYWARD'S "PASTE" DIP on my Sheep, and have pleasure in bearing testimony to its EFFICACIOUS DIP. I need have no hesitation in recommending it generally as a Cure for Scab, without discolouring or damaging the Wool.
The "PASTE" is in my opinion preferable to the Powder, and will probably have a larger sale than the latter."
Yours very truly
(Signed) **JOHN KELLIE.**
It has been proved by many important Estancieros that HAYWARD'S PASTE is more convenient to use than any other Dip, being already mixed and dissolving in any kind of water. It makes a smooth soapy bath which adheres well to the Fleece and leaves the wool clean and soft.

## ON 'CHANGE.
Wednesday, May 11th.

The gold market turned round to-day and affairs were very bearish, owing to heavy sales for Saturday and end of the month. These time bargains on the kerbstone had an immediate effect on prices for cash at the ring. About sixteen thousand ounces changed hands at the first ring; the price opened at 53.70, fell to 53.50, rose to 53.80, and closed heavy at 53.70, say 230 % premium. One thousand sovereigns were sold; the price opened at 16.68, fell to 16.66, and closed at 16.67, say 2301 % premium. The feeling in the market was as bearish to-day as it was bullish yesterday, and the favourable news about the subscription to the capital of the Banco de la Nacion had much to do in the general improvement in the situation.

The news about the Banco de la Nacion, the appointment of five new Directors of the shareholders, and the reopening of the subscription, produced the very best impression upon the market. In all quarters the topic was discussed and a far more favourable opinion prevailed with regard to the management and prospects of the Bank. The great desideratum is to save the Bank from becoming a thoroughly state concern: last week it was feared, on plausible grounds, that, in view of the unsatisfactory results of the subscription, the Government would return the subscriptions to the subscribers and carry on the Bank as a State bank with its full capital of of fifty millions. That threat has been removed and the market breathes more freely.

Another consideration is the probability that the Government and Congress may agree to reduce the capital of the Bank to twenty millions, half subscribed by the public and half by the Government. We think that this reduction in the capital will be effected sooner or later, and it would imply a reduction of 30 millions in the authorized issue of the currency. In fact the very best news is current with regard to the new Bank, and the whole market is beginning to look forward with much interest to the re-opening of the subscription. Quite a number of capitalists who fought shy of the subscription last month are now prepared to subscribe for heavy amounts. This explains the sudden demand for Patriotic stock since the news of the re-opening of the subscription leaked out yesterday afternoon.

Patriotic Bonds were in great demand all morning and prices advanced several points. About two hundred thousand changed hands for cash, opening at 61½, rising to 62, and closing at 61.80. Over one hundred thousand were sold for the end of the month at 61.50 to 62.50, closing at 62. Internal Bonds of 1892 closed at 51.50. With regard to these Internal Bonds, it is surmised that the London shareholders of the National Bank will sell the Internal Bonds that they received in exchange for shares and buy Patriotic Bonds to subscribe to the Banco de la Nacion. Numerous orders are being daily received from Europe to subscribe to the New Bank.

Two hundred shares of the Banco de Italia y Rio de la Plata were sold to-day at 69½: fifty were sold at 70. The stock is in demand at these rates. A few shares of the Buenos Aires Insurance Company changed hands at 30; this is the first quotation of the stock since the reduction of the capital of this company. Catalinas were quoted at 7.20 and 7.10. National Cedulas C advanced to 87.30. La Plata Cedulas were firm at 30 for K, M, O and P, at 29 for F 29½ for G, 30.10 for L, and 29.90 for N.

Exchange continued very weak this morning: there is little or no exchange left in the market; sterling was quoted at 47¾-5d., francs at par and marks at 4.06. Discounts are more or less easy.

The following is a summary of the business effected in stocks and shares at the first ring to-day:—

Ounces—
For cash.... 15,621 at 53.70-60-50 - 60-70-80-70-

The Pacific steamer Sorata, Captain Adey, will leave on 8th prox. for Punta Arenas, Coronel, Talcahuano, and Valparaiso.

The Governor of Tierra del Fuego has sent a lengthy note to the Minister of the Interior proposing to turn States Island to account as a penal settlement, especially for military offenders; a sailors' school, carpenter and blacksmith's shop might be started to carry out work for the navy and army. The establishment would cost little beyond food-supply; the men could extract all the necessary oil for the light-houses, and manufacture warm clothing on a considerable scale. The penal colony would help to develop the great natural resources of that territory.

Great complaint is made about the large number of false notes in circulation, and the opinion is that the Government ought to call in all the fifty and ten dollar notes in circulation. It is really scandalous the number of false notes flying about. We heard to-day that now there are false fifty cent notes out.

The Minister of the Interior has taken up the all important question of irrigating the lands in the travesia between the Rios Colorado and Negro: a most important subject, as it will improve an immense tract of fine pasture land that even under present circumstances is getting thickly settled on by Basque and Italian sheepfarmers. It is estimated that there are now over a million of sheep on this vast 'travesia,' but the scarcity of water is much felt. A canal from the Rio Negro, near Pringles, through a portion of these lands would add immensely to their value, and cost very little.

We hear that Mr. Jaensen, the well-known money broker, has been the victim of a robbery in his office. A confidential clerk stole $20,000% and sent him threatening letters; the matter is in hands of the police.

The gold market ruled very weak at the second ring: about eight thousand ounces were sold for to-morrow: the price opened at $53, rose to $53.30, and closed at $53.10, say 2264% premium. Over two thousand sovereigns were sold; the price opened at $16.51, fell to $16.49 and closed at $16.51, say 3274% premium. Patriotic bonds were active and closed steady at 61. Internal Bonds closedat 51.80. La Plata Cedulas were very firm at 30.80 and 30.90, a considerable spurt since yesterday.

The following is a summary of the business effected in stocks and shares to-day at the second ring:—

The Pacific steamer Lusitania, from Valparaiso, left Coronel yesterday. She is expected at Montevideo on the 21st inst. and is posted to leave same day for Europe.

Plaza Once reports:—

Nothing specially new can be reported from this market; prices remained more or less as yesterday. If anything, "trigo Frances" might be quoted as something firmer for our home market, since millers showed some more interest.

However, arrivals don't weigh upon the market, and for this reason only better lots improved in price. Very good "trigo Frances" sold at $9.10, and special lots were placed although with difficulty up to $9.50.

For known reasons the export does not step into the market, although shipments are effected upon old contracts.

There seems to be a great difficulty respecting freights; shippers pretending much lower quotations to what agents can accept, and for this reason shipping seems to be at a stand-still.

Twenty-one shillings up-river for grain, however, seems to have touched "bottom pit," and shippers cannot do better than secure freight at this rate.

Several lots of yellow export maize were secured at $4.60 up-river, and, in fact, Rosario people pretend having closed at $4.55, which rate, however, cannot be put down as market value, since prices ruled rather stiffer in the Once this morning.

'Amarillo bueno nuevo' fetched up to $4.40, 'amarillo viejo' $4.50. 'Morocho viejo' $5.20, $5.25, and 'morocho nuevo' $5.10 and 5.20. No interest was shown in linseed nor 'nabo,' whilst for 'mani' offers were made up to $1.40 and $1.50 delivered here, or $1.30 in camp.

For hay, only good quality was in demand, fetching up to $36.00; bad lots entered in great quantity, and as usual, spoiled the market. Several good shipments are reported for Brazil, but since prices were kept 'en reserva' the market was not effected.

Government has ordered that Messrs. E. Madero & Sons be paid the sum of $800,000 gold, for work done on the Port, for over a year past.

The Finance Minister has ordered the Administrator of the Custom House to let him know as soon as possible the result of the legal investigation into the charges made by Inspector Ouvinos against Messrs. Ramon Blanco & Co. of defrauding the Customs.

The returns of the Custom House to-day amounted to

The Minister of Finance has fixed the rate of gold at 322 for payment of Customs dues.

We take the following from Messrs. Williams & Co.'s Buenos Ayres shipping report for April:—

Steamers—Shipments of wool have been more active in the past month, but owing to the supply of tonnage being plentiful, rates did not rise over 20 to 22½ fcs per cubic metre. It is estimated that the bulk of the clip has now been shipped, and that after the present month but little will remain to go forward. The business done in wheat and linseed has partaken of the same features as since the commencement of the crop; the want of animation prevents freights from rising, and the rate for ready boats, as also for maize tonnage for May, June, July and August closes weak at 22s. 6d. 23s. Several fixtures have been made at these figures, and the supply of tonnage offered from Europe exceeds the present demand.

The maize crop is undoubtedly a good one, both in quantity and quality, and we think that rates can hardly fall below present quotations.

Sailers—The demand has been very limited and rates fell to 20s. for wheat from Rosario, but owing to the present scarcity of suitable tonnage 22s. is to-day obtainable. Tonnage is also wanted at this rate for July and August, while from the Boca 17s. to 17s. 6d. is the best obtainable. Vessels for salted hides are very scarce, and 40s. from Paysandu is easily obtained. The demand for hay tonnage from Rosario to Rio Janeiro or Santos has greatly declined, and we cannot quote to-day more than $2.50 to $3 per cubic foot. Very little doing for the U. States.

Principal exports from Montevideo during the month of April—

| | |
|---|---|
| 6,968 | bales wool |
| 138 | bales skins |
| 64 | bales hair |
| 156 | bales hide-cuttings |
| 2,560 | pipes tallow |
| 64,607 | salted hides |
